

Frog-tastic!™ Calendar T-8331

★ Featured Display: Winter Wonders

Get students interested in science by watching winter weather and studying snowflakes. Display your calendar with the current month's header piece, date cards, and special day markers. Display the weather spinner and ask a different student to update the spinner each day. Discuss the current outdoor weather and invite students to help dress the 15" frog in appropriate winter clothing. Present interesting snowflake facts on a sheet of Terrific Papers™, and then show students how to fold and cut their own snowflakes. Add these to the display. If you live where the winter climate is warm, students will enjoy this activity by using their active imaginations to pretend they live in a snowy place!

★ You'll need
